## AN IMPORTANT DECISION.

The supreme court on the second of this month, sitting in bank, rendered a decision of much interest to the legal fraternity, and also to property holders generally. It was in the case of L. J. Turner vs. J. B. Richardson, involving the question of who was entitled to letters of administration upon the estate of Arthur D. Turner, who died in Solano county. Deceased left four brothers, three of whom were adults, the fourth being a minor. J. B. Richardson was appointed guardian of the minor, and as such applied for letters of administration, his application being supported by two adult brothers. The other adult brother, L. J. Turner, petitioned for letters, and contended that being of age he had a superior claim to administer the estate as against the guardian of the minor. The lower court held otherwise, and appointed the guardian as administrator. The supreme court, in a lengthy decision, which we publish in full in another column, sustains the action of the lower court, holding that the legal guardian of the minor brother was placed on the same footing, so far as the right to administer the estate was concerned, as the adult brothers. The court plainly says that it was within the discretion of the court to appoint the guardian of the minor brother to the exclusion of the adult brother. This decision is of much interest in Amador county because a contrary view was upheld in a contest for letters of administration of the estate of Frank Frates, who died in June in October last. He left several children as heirs, all minors, the oldest son lacking only two years of being of age. W. A. Bennett was appointed guardian in accordance with the wishes of all parties in interest. As such guardian he applied for letters of administration. Under the supreme court decision of the guardian was entitled to the same force and effect as the petition of a son of adult age. The public administrator, Geo. M. Huberty, made application for letters, contesting the right of the guardian of the minor heir. The case was argued on both sides, F. L. Stewart for the guardian and W. J. McGee for the public administrator. The judge thereafter filed a written opinion, holding that the court in the exercise of its legal discretion had the right to appoint whichever petitioner it deemed best for the interests of the estate, and thereupon appointed the public administrator as such, in preference to the representative of a relative and heir of the highest class. The case was not appealed, owing to the expense involved therein, and the public administrator is now in charge of the affairs of this estate. The decision published in extenso elsewhere will hereafter definitely settle the point that the discretion of the court in such cases is confined only to members of the same class, and must not be exercised in favor of a subordinate and against a superior petitioner for letters of administration.

## AN ADVERTISING SCHEME.

There is much unfavorable comment upon the action of the board of supervisors in voting at their last meeting the sum of \$250 out of the county treasury to advertise the resources of Amador county at the forthcoming gathering of Knight Templars in San Francisco in September. The Ledger does not doubt the power of the supervisors to donate this money. Under this wide-open law the county authorities are empowered to give away public funds on almost any flimsy excuse. A world's fair is now on in St. Louis, the greatest and probably the last grand exhibition of the world's resources and human inventive genius. To make a showing at this exposition has been the aim of every progressive county in the state. Amador has been appealed to in vain in this behalf. Not a dollar has been voted; not a booklet, not a leaflet has been circulated to set forth the attractions of this county to the investor and homeseeker. We could not, or at least would not, join with other counties of the Sacramento valley in a display of products at St. Louis. But when an application is made for help in some crude and indefinite plan to advertise the county at a two days' convocation of a fraternal organization, \$250 of the peoples' money is handed out without a shrug of the shoulder or the blinking of an eye. This is the second time the taxpayers of Amador county have been compelled through the board of supervisors to contribute to the

blare and glare of a street show of a semi-public character. No doubt many thousands of distinguished visitors will be in San Francisco at the Knight Templars convocation. The sun donated may be well expended, and bring ample returns. But the shortsightedness of ignoring a world-wide exposition lasting eight months, and to which millions of tourists will be attracted, and taking up in preference a comparatively small concern, will not appeal to taxpayers as a business enterprise. It is not the kind of move a live business man would be apt to make in the conduct of his own affairs where the financial responsibility would have to be met from his own pocket.

## For a Hundred Years.

For a hundred years or more With Hazel has been recognized as a superior remedy, but it remained for E. C. DeWitt & Co. of Chicago, to discover how to combine the virtues of Witch Hazel with other antiseptics, in the form of a salve. DeWitt's Witch Hazel Salve is the best salve in the world for sores, cuts, burns, bruises and piles. The high standing of this salve has given rise to counterfeits, and the public is advised to look for the name "DeWitt" on the package, and accept no other. Sold by City Pharmacy.

## Baseball at Angels.

Angels vs. Jackson, with Mr. Washburn as umpire, was the line up at Angels Camp Sunday. The game was a close and exciting one from the start. Every one played ball as carefully and earnestly as though his life depended upon the result. It was a quiet, peaceable game, and one that showed the gentlemanly traits of all the players. The score at the end of the ninth inning stood 3 to 4 in favor of the Angels. At the end of the eighth, the score stood 2 to 3 in favor of the Jackson boys. Our boys cannot find suitable words with which to express their appreciation of the many favors shown by the opposing team. They will endeavor to do the manly act when they secure a return game. Cavagnaro of Amador and Brown and Brignole of Sutter played with the Jacksons and deserve special mention for the excellent manner in which they filled their respective positions. But two 2-base and two 3-base hits were made during the game. Mr. Washburn made an impartial and satisfactory umpire.

Murkle and Cavagnaro were the battery for the Jacksons. Dearse and Coster for the Angels.

The Jackson line-up was as follows: Cavagnaro, catcher; Murkle, pitcher; Poggi, 1st base; Brown, 2nd base; Fortner, 3rd base; Brignole, short stop; Parano, right field; Thomas, center field; Ardito, left field.

The same team will play at Mokelumne Hill next Sunday with Frank Sanguinetti as manager. One week from next Sunday they will play on Pieming tract.

## \$25 Fine.

George Flumer concluded that a dove pie out of season would be just about the right thing for a Sunday dinner, so on Wednesday evening he shouldered his gun and started out for the first instalment. The game warden was also on duty and heard the first shot. By the time Flumer had bagged the first half dozen Ardito and Reichling called a halt, and brought the disappointed nimrod before the majesty of the law, who assessed the damages at \$25. Flumer paid up, and went on his way—not rejoicing. Barrett called in for a glass of soda, but the doves were already in the kettle, being converted into soup for the sick.

Fire destroyed several hundred acres of grain in Glenn county last week.

Light rain fell in many places in the state during the early part of last week. Reports from all parts of the state show that vineyards were never in better condition during the month of June than at the present time. An unusually large yield of grapes is expected.

Apricots, peaches, plums, and cherries are now being shipped east in large quantities.

The berry crop throughout the state is the largest for many years. The loganberries are more plentiful than ever before.

The recent hot, dry winds greatly injured the grain and potato crops along the Sacramento valley.

Ex-Mayor Snow, of Oakland, was shot by A. Goldman Monday evening. The injured man is in a critical condition.

The Japs are still marching on to victory. The Russians are going the other way in double-quick time.

Six hundred persons, men, women, and children, met death Wednesday by the burning and sinking of the steamer General Slocum in the East river near Long Island Sound. The party consisted of the Sunday school pupils of St. Mark's German Lutheran church, their relatives and friends. They were out for a day's pleasure, and met death in sight of thousands of people.

## Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## The 4th in Plymouth.

The people of Plymouth are making great preparations for the coming celebration. Joe Datson has been appointed solicitor, which means that they will have more money than they can judiciously spend. Supervisor Burke will act as a bureau of statistics, and from the top of a tower on Main street, which will be erected for that purpose, he will impart all needed information to the inquiring public. Jule Levaggi, Ed. Potter, and Jasper Phillips will attempt to sail over the town in an airship immediately after the noon hour, provided all the hot air has not been exhausted before that time. The church ladies and others, together with all hotels and restaurants, will furnish first-class meals to those who find seats at the first tables at 50 cents per plate. Those who are unfortunate enough to get in at the second table will get a second class meal at the same price. No extra charge will be made for your having waited. Ardito has sown a large field of oats, rented fourteen barns, and will feed all teams at any old price. Drs. Boydston, Norman, and Tiffany have volunteered their services to fasten on with sticking-plaster any finger, toe or nose, that may be blown off by the premature explosion of firecrackers or otherwise. Three pretty maids are being voted for Goddess of Liberty, and no doubt the one having the greatest number of nickels in the saving bank will be selected. Nothing but ice cold drinks will be sold at any of the houses in town unless the people should ask for something stronger. Ice cream and cream without ice will be on hand in cans and kettles, so that you can have your berries plain or otherwise. Race horses and horses that can't race may be entered in the free for all, but the entrance fee must be paid in advance so that if any horse should go wrong it would not disappoint the committee. All other anticipated celebrations in the county have been bought off at a large expense. Every amusement from a pie-eating contest to a parrot-shoot venture has been provided, and the management will be disappointed if it is not the largest and most successfully carried out celebration ever held in Amador county. Nothing will please an invalid as well as a package of those fancy cakes from Nettles' Mkt.

Walter Lancaster, a member of Plato &amp; Carter's Kentucky minstrels, was arrested Tuesday morning on complaint of U. S. Gregory, on a charge of assault with a deadly weapon. The darkey performer went into the store of the complaining witness to make a small purchase. Some misunderstanding arose over a trifling difference in the amount. It is claimed that the minstrel drew a knife or razor; that the other side reached for the nearest weapon reachable, whereupon the dusky visitor made for the street. No harm was done, the belligerency being confined to words. When arrested and searched neither knife nor razor was found on the accused. He was held and bail bonds fixed at \$500. Up to the present time he has failed to secure bonds. The company of which he is a member played in Jackson Saturday and Monday.

## Death of Josiah Gundry.

Josiah Gundry, of Amador City, a man well and favorably known throughout Amador county, passed away at his home Monday morning, at the advanced age of 79 years. Mr. Gundry was a native of England, but came to this country when quite a young man, and succeeded in amassing a comfortable fortune. He was a man of liberal education, and a great lover of poetry and song. His memory was most remarkable. It was his delight to entertain friends by reciting favored selections from all the famous poets. At different times he sought political favors with varied success. For many years he held the position of justice of the peace in Amador City, and his decisions were always the best judgment of an honest man. His wife preceded him by many years, and his only daughter died less than a year ago. He leaves to mourn his death a number of grandchildren, who have made their home with him for several years. His interment took place Wednesday, at 2 o'clock p. m., in the Amador cemetery.

In the death of Judge Gundry the county loses another one of its pioneer citizens. One by one these venerable men are passing away. Their active lives are being brought to an honorable close. The great majority of them were, and are, men of superior intellectual attainments, and their influences will be felt for generations to come. They assisted in laying the foundation of our county and state; they built upon a solid foundation. The fruits of their labor are now being garnered by a younger generation. May they reap a just reward in the great beyond.

## Baseball.

Sunday's game between the Placerville and Jackson teams was an interesting one to the average spectator. The score, 12 to 13, if taken alone would indicate that the game was not what it should have been, but a few slight errors on the part of two or three was the cause of the large score. Still these errors created intense excitement whenever they occurred. Four times in succession did the Placerville team face pitcher Hopkins and return again without scoring. Mr. Pitt also sent the Jackson boys back several times with a goose egg to their credit. Mr. Harmon deserves much praise for the manner in which he clung to the hot ones pitched by Hopkins without any practice for several seasons. The visiting boys were skillful players, and the Jackson nine as it lined up Sunday will make the best of them a worthy foe before the season closes. Following is the score:

## Big Improvements Contemplated.

It is reported that the Standard Electric Company, or rather its successors, the California Gas and Electric Corporation, contemplate making extensive improvements and additions to the electric plant at Electra, and the water supply connected therewith. Rumor has it that the works in this county are to be maintained as the principal source of electric energy. Another pipeline and plant is talked of; the canals and reservoirs are to be enlarged, and other improvements made. The possibilities of this region as the source of electric power are fully appreciated. The present works are running to their full capacity night and day. Some 70 men are at present employed in preliminary work. It is believed that the improvements mapped out will extend over several years, and will add immensely to the capacity of the company, besides giving steady employment to a much larger force of men.

## Blue-Prints

Two prominent business men of Jackson, friends of long standing, undertook to make some blue-prints. One succeeded, the other failed at first. The successful one started to laugh, when to his surprise his friend gesticulated with his right, striking him squarely in the eye, demonstrating that he could not only make a blue-print but could also mix a little black with it. Each one is now satisfied that the other thoroughly understands his business.

conveyances went to Jackson Sunday to see the ball game. They came back rejoicing that the Jacksons won, as four of our boys played with them. We could organize a first class home team if we had suitable grounds near town.

Toby Marsino had an exciting run-away with the Jackson and Volcano stage down the Pine Grove hill Saturday. In some way a trace came unfettered, and striking one of the horses on the legs caused it to become unmanageable. Fifteen girls and one lonely boy appeared before Geo. A. Gordon at the public school building Monday, for the purpose of taking their final G. G. examination. NOTES FROM  
GOLD MINES

MADRONE—The promoters of this mine expect to have the mill in operation by the first of July.

LINCOLN—Superintendent Ross of the Wildman-Mahoney mine has put on a crew of men at the Lincoln, getting everything in readiness to use the shaft and machinery in working the Mahoney.

WILDMAN-MAHONEY—After laying idle for months Superintendent Ross now feels confident that these properties will be re-opened and prospected on a larger scale than ever. This will be welcome news to many persons throughout Amador county.

FREMONT-GOVER—The situation remains unchanged. The property has been shut down for nearly two months, and will remain so for months to come if necessary. The strike was brought about without just cause, and must of necessity fail.

GLENN—We hear that the output during the last month was the most satisfactory yet realized. The mill will be shut down some time in August, or as soon as the water supply runs short. After enlarging the mill steam power will be used during the fall months.

J. Champion arrived in Jackson from Dunsuir. He is the owner of the Champion mine in Hunt's gulch, adjoining the Amador Queen No. 1 on the south. We are informed that he left Sunday morning, after shipping a quantity of ore, taken as a fair sample of the quartz from this property, for the purpose of getting capitalists interested in opening up this promising claim. He holds out the hope that the mine will be started up ere long.

## The Railroad.

Much comment, some favorable, some unfavorable, regarding the Ione and Eastern Railroad can be heard upon the streets. Not wishing to impose a batch of bear-ays upon our readers we took the pains to interview one of the parties interested, and learned that a definite route had been selected and that a crew of sixteen surveyors were again in the field reviewing the route, and taking and marking the grades preparatory to the beginning of work.

That as soon as the surveyors notified the management that the survey was far enough along for grading to begin it would actually be begun, and the road completed as soon as possible. The route selected runs from Ione to Martell's station. The company gave all routes a thorough investigation, and decided that this was the most feasible one. We hope no one will kick about this, no matter where they live or how much or little use they have for the road. It could not be built to run past every man's door, or through every farmer's grain field. Patronize the depot nearest your home; be satisfied if you have been helped just a little, and if the road has not benefited you at all it will certainly do you no injury.

Let us get the road as far as the station during the coming year, and then if the promoters feel tired and need a little rest don't worry. Let them sit down and think over the proposition. The road from Jackson to the station is good, and from the station on to Sutter is good. If we show our appreciation of small favors we will, in time, be granted larger ones.

## Killed at the Gwin.

Groacchino Sbragia, a laborer at the Gwin mine, was accidentally killed by a falling rock Thursday, about 1:30 o'clock p. m. Deceased and his partner were preparing to put in a set of timbers in a tunnel when, without warning, a large boulder weighing about two tons came down and pinned him between the rock and the car, pressing the life out of him. His partner gave the alarm and his fellow workers removed the body from its position. His remains were brought to Jackson Thursday evening where they will be interred Saturday at 2 o'clock p. m. under the auspices of the Miner's Union and order of Druids, of which he was a member in good standing.

Deceased lived in Jackson for several years, working at the Kennedy mine, he had been at the Gwin but 30 days. He has a brother on the Sacramento river, who is expected to arrive in Jackson to-night.
